**FOR IMMEDIATE RELEASE**

August 21, 2009

### **RAM Summit to be hosted by Biella Airport**

RAM 2010 will be hosted by Biella Airport in Italy. Landing fees are waived for conference delegates who arrive at the conference by private aircraft. For more information about Biella Airport, please visit [www.aeroportobiella.it](http://www.aeroportobiella.it)

The Regional Air Mobility conference is sponsored by Spectrum Aviation Europe and it will take place on 15th - 16th March 2010. It is designed to promote a new relationship between regional airports and business / commercial aviation operators. The services of small European airports are important to both operators and aircraft manufacturers and this event will provide the platform for the exchange of ideas and information as well as high level networking among the delegates. The conference will focus on the needs of small airports and the services of operators. These airports are pro-active drivers of regional economic growth and provide the link between operators of business and commercial services and the local communities.

The participants are expected to include senior representatives of European regional airports, business aircraft operators, airlines, manufacturers, bankers, lawyers, financing companies and all professionals with an interest in the development of regional airports and the operations of business and commercial aircraft.

This conference is organized by Aeropodium. For more information, please visit <http://www.aeropodium.com/conferenceprojects/regionalairmobility.html>
